Let your imagination flow

Imagine a kitchen or bathroom where colours and textures flow seamlessly together. Where surfaces, sinks and bowls become elegant waterfalls of smooth, sleek lines.

Wouldn't it be wonderful if you could design your kitchen or bathroom to be like that? You can. With Corian®.

Simply make Corian® kitchen sinks and vanity bowls integral parts of your Corian® surfaces. It's not only a sensational look, but practical.

With the non-porous nature of Corian® there are no open sink joints or seams. So you can spend less time worrying about stains, dirt, germs and mildew. And find time for much more creative endeavours than cleaning.

Seamless integration

The ability to create an entire, continuous surface in Corian®, incorporating sinks or bowls, is one of material's main advantages.

Seamed undermounting techniques eliminate rims that trap dirt and water, minimizing cleaning and maintenance.

The ease of installation of single or double sinks or a series of units, makes it possible to design spaces that respond to criteria of practicality and multiple use, alongside highly emotional, individual, aesthetic values.

Use & Care

Depend on us to make your life easier. Corian® is an advanced blend of natural materials and acrylic polymer. By nature, that makes Corian® easy to clean, easy to care for and easy to live with.

Of course, Corian® isn't self-cleaning. Few things are. But only minimal care is required to maintain its good looks. And if accidents happen, it's a comfort to know that Corian® is non-porous, stain-resistant, durable and renewable.

For detailed instructions, please ask your Corian® specialist for guidelines on using and caring for your Corian®.

Quality Network & Warranty

Count on us to keep our promises. Corian® is backed by a 10-Year Limited Product Warranty. When the Corian® Quality Network installs your Corian®, the entire installation is under limited warranty for 10 years, too.

Our team of authorised fabricators and installers are trained in the latest techniques for working with Corian®. And they're committed to deliver the highest levels of quality and customer service at the lowest possible installed cost.
